

CS5000 Reboot and Shutdown Sequence

Follow the below instructions using the keypad to the right of the LCD on the main system unit.

To reboot the system:

- Press the middle button
- Press down for System Menu
- Press the middle button
- Keep pressing the down button until you get to Reboot
- Press the middle button
- It will say Are you sure? Press down for Yes
- Press the middle button

The system will now reboot and may take up to 10 minutes

To shutdown the system:

- Press the middle button
- Press down for System Menu
- Press the middle button
- Keep pressing the down button until you get to Shutdown
- Press the middle button
- It will say Are you sure? Press down for Yes
- Press the middle button

The main LCD light will go out once the system is shutdown, to restart the unit press the middle button or disconnect the power lead and then plug back in.
